### Youngster Sells \$2,000 Worth of War Bonds

Eleven-year-old Billy Dunworth, who alone sold \$2,000 worth of war bonds, is among the many volunteer workers whose efforts, backed by the loyal support of the community, helped to put Antioch's Seventh War Loan campaign "over the top." Chairman Otto S. Klass revealed this week. Billy is the son of Mr. and Mrs. William Dunworth, Bluff Lake road.

Antioch's "grand total" of war bond sales was listed at the end of the campaign on June 30 as \$215,709.50. Payroll purchases of bonds are not included in this total, Klass states, although they will be credited to Antioch when they are reported later by the Federal Reserve banks, nor does it include purchases by the two local banks.

Purchases of "E" series bonds reported so far amount to \$87,709.75 (quota, \$60,000); all other bonds, \$127,999.75.

## News of the Boys in Service

The names of about 12 men in the navy, marine and coast guard services have been restored this week to the Antioch News Boys in Service mailing list, with the receipt of requests from the addressees in accordance with a Post Office department ruling which requires that these requests must be kept on file for inspection by the local postmaster on demand.

There are still about 85 names which were taken from the list last week, when the postal order went into effect. As quickly as requests are received from the men, their names will be replaced on the mailing list. These requests must come from the men themselves, and not from other members of their family, the post office department emphasizes.

## Coming Events Occupy Lions Club's Interest

### Floodlights for H. S., Races and Dance Are Discussed

Arrangements to have the Antioch Township High school football field floodlighted for the coming season, or if this is not possible, for ensuing seasons, were discussed by the Antioch Lions' club at a meeting Monday evening in the Roundup restaurant on Highway 21.

The project has the full approval of the high school board, President Walter K. Hills states. The Lions are planning to have an engineer make an estimate on the project this week and secure information as to whether the materials needed can be obtained at this time.

Plans for boat races and a dance to be sponsored by the Lions at Channel Lake on Sunday, July 29, occupied the attention of the club during a portion of the business meeting.

### Free Admission

No admission charge will be made for either the races or the dance, it was voted. Both the races on Channel lake in the afternoon, and the dance in the Channel Lake pavilion in the evening will be open to the public.

The promotion of a safety campaign at the lakes, on the village streets and on nearby roads and highways was suggested in a report by the safety committee.

This was the first meeting at which the new officers, headed by President Harry J. Krueger, had charge.

During July, August and September this year the club is holding only one meeting, on the second Monday of the month. The customary meeting on the fourth Monday is being suspended until October.

Thirty were present for the roast beef dinner served previous to the business session.

The three old standby rides at Riverview Park, the Merry-Go-Round, the Chutes, and the Strat-O-Slat airplane ride, are just as popular today as they ever were, proving that the public's taste in amusement changes little, according to George A. Schmidt, president of the Park.

This must be our week to hear from the subscribers. From Mrs. James P. Lynch, 655 West 164th street, Gardena, Calif.

"We always look forward to the Antioch News to keep in touch with home town doings. I don't know many people there, but those I know are mighty fine people. But being it's Jimmie's home town, he can keep up with his home news."

"I save all the papers for him while he's gone, so he has lots of reading when he gets home. Those he doesn't get to read before sailing again, he takes along with him."

"He's still sailing, doing his part for his country and keeping the boys over there in supplies."

"We're beginning our warm weather now, although it's cool in the morning and evening."

"This leaves us all well and Jimmie was in good health when home last. Hope this finds all of you well and in the best of health and still keeping the Antioch News rolling to James."

Redecoration of the "front office" at the Antioch News was begun last week, amid profuse comment, advice, etc., from the droppers inners, business callers and mere spectators.

Received from an Antioch News subscriber, together with payment for a year's subscription:

Sure as the brier grows 'round the stump,

You are my darling sugar lump!

—and with sugar rationed, too!

For love she married poor young Beggs

She was a rich man's daughter,

And when she tried to boil his eggs

She even burned the water.

(Cincinnati Enquirer)

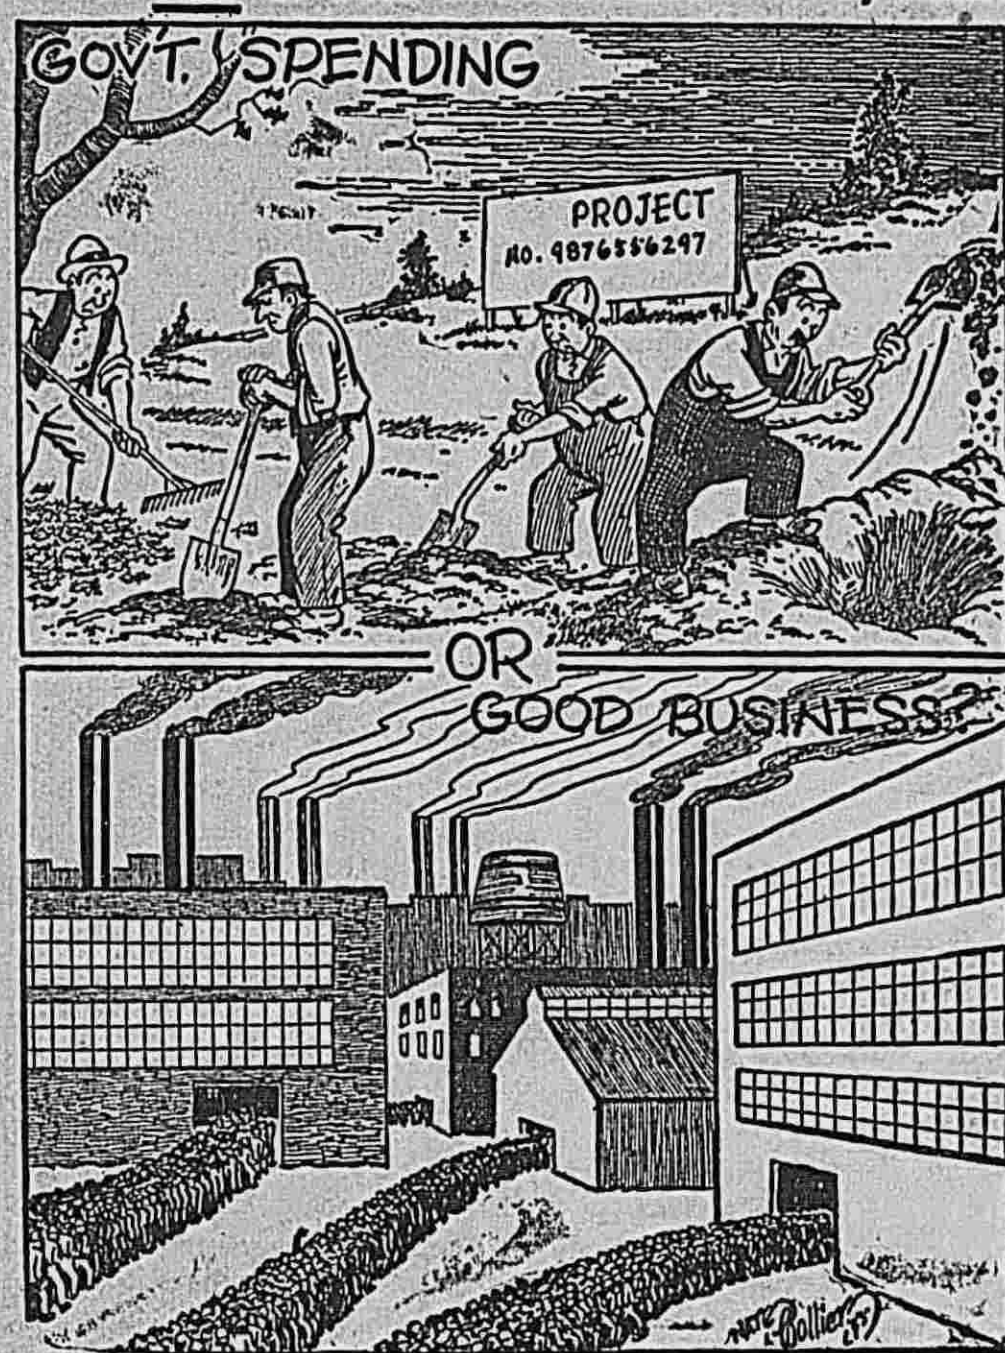

She went to buy some eggs, one day

From six stores where they sell them;

She turned dissatisfied away

Because they wouldn't "shell them"

## H. C. Schulz Dies at Home, L. Catherine

### Veteran Shoe Repair Shop Owner Passes at Age of 71

Henry C. Schultz, 71, whose shoe repair shop enjoyed an enviable reputation for fine workmanship, passed away Wednesday at his home at Lake Catherine. He had been in poor health for some time, and had been obliged to discontinue his business recently.

Final rites will be held in the Strang Funeral home Friday at 2 p. m., with the Rev. Warren C. Henslee in charge. Burial will be in Hillside cemetery.

He was born in Borkendorf Jan. 8, 1874, coming to this country in 1902. He had lived at Lake Catherine for the past 11 years.

Surviving are his wife, Karoline, and two sisters, Mrs. Millie Merkel and Mrs. Emma Weserman, both of Chicago.

Friends of the family have been requested to omit the sending of flowers.

### JAMES HORAN, OVERSEAS 28 MONTHS, RECEIVES DISCHARGE AT SHERIDAN

After serving in the army for the past three years and overseas for about 28 months, T/Sgt. James Horan is now a civilian, having received his discharge at Fort Sheridan July 3, Horan was with the army postal service as a mail clerk in north Africa, Italy and France. He was last stationed at Le Havre, leaving there the end of May to return to the States.

Army postal work is quite different from that encountered in civilian work, was the opinion of Horan, who was postmaster here for seven or eight years.

"Instead of a basket full, you have a van load. Where you would have one truck full in civilian life, you have a whole convoy. Everything is speeded through as rapidly as possible, under difficulties that may include bombing, strafing, fire, sinkings, weather and accidents, as well as personnel generally unaccustomed to methods of handling mail," he observed.

### PVT. DONALD GIBBS WOUNDED ON OKINAWA

Mrs. Donald E. Gibbs, 1066 Spafford street, recently received the following letter from Lt. Col. D. Routh, headquarters of the U. S. Marine corps, Washington, D. C.:

"A brief report has just been received that your husband, Pvt. Donald E. Gibbs, sustained a gunshot wound of the right arm in action against the enemy on 6 June, 1945 at Okinawa Island, Ryukyu Islands."

"Your anxiety is realized, and you may be sure that any additional details or information received will be forwarded to you at the earliest possible moment."

S/Sgt. John R. White left Sunday for the Marine base at Parris Island, S. C., after enjoying a 13-day furlough with his mother, Mrs. Pearl White of Zion, and other relatives and friends in Antioch, Russell, Kenosha and Chicago.

## Street Material Contract Goes to Libertyville Co.

### Liberty Petroleum Is Low Bidder with \$1,388 and \$427.50

The contract for furnishing material required in the maintenance of Arterial Streets Nos. 1, 2, 3, 4 and 5 in Antioch was awarded to Liberty Petroleum company of Libertyville at a recessed meeting of the Antioch village council last evening, when sealed bids for the project were received and opened. Acceptance of the bid is subject to the approval of the Illinois State Highway department.

The Liberty Petroleum company was the only one of the three bidders which included in its bid the furnishing of 225 yards of gravel.

Its bid was \$427.50 for furnishing the gravel and \$1,399.00 for the other surfacing materials.

The other bidders were Skokie Valley Asphalt Co., \$1,544.00 (not including gravel), and James Baker & Co. Sons, \$1,962.00, also not including gravel.

The gravel is to be used on Depot street east of the Soo Line railroad tracks and on North avenue east of Main street.

The other streets on which maintenance work will be done are First, Orchard and Quality.

Funds for maintenance of the arterial streets are derived from state motor fuel tax refund allocations.

### Former Antioch Man, 88, Revisits Scenes After 68-Yr. Absence

Willis B. Smith, 88, of 303 Grand avenue, Syracuse, N. Y., paid his first visit to Antioch in 68 years the first part of this week.

Accompanied by his daughter, Ruth, he traveled the 1,000 miles here to visit the grave of his father, Elder A. J. Smith, one of the early religious leaders of the lakes region, and to revisit old scenes and endeavor to locate his friends of nearly three-quarters of a century ago.

He also visited Gurnee, where he preached in the Community church 68 years ago, and called on 81-year-old Custodian Schriver of Warren cemetery, who is believed to be the oldest sexton in Illinois.

On his first visit to Hillside cemetery, on Monday, efforts to locate Elder Smith's grave seemed fruitless. He and his daughter stayed overnight at the H. H. Perry home on Lake street, and after renewing their search on Tuesday discovered the grave on the Roxy Emmons lot in Hillside.

While a new marker is to be placed on the grave, the old headstone, which is broken, will also be preserved there as a relic, according to A. G. Zenor of Loan Lake, to whom Smith has entrusted arrangements.

### Berries and Fruit are Ready for Canning Now

Citing the recent Government warning that civilians will get 25 to 40 per cent less commercially canned fruit this year than in 1944, the Nation's leading food distributor today urged housewives to start at once on home canning the fruits and berries now reaching peak production on nearby farms.

"Continued heavy demands by the military for canned fruits, berries, jams and jellies make it necessary for housewives to preserve as many of these items as possible at home," Mr. R. F. Gamble, Sales Manager for A&P food stores in this area, said.

To help solve home canning problems, he added, his company had established a consumer information service to supply leaflets in their stores giving complete information on home canning and recipes for the use of sugar substitutes wherever possible.

### CHARLES H. CRANE, LAKE VILLA, HAS PURPLE HEART MEDAL

Pfc. Charles H. Crane has received the Purple Heart for wounds received in action in Germany, and has been awarded the Combat Infantry badge with two bronze stars. He is now with an engineer supply unit in Paris. Mrs. Crane and their two children live in Lake Villa.

S/Sgt. Lorraine O. Pape is expected home on furlough from Alamogordo, N. M., the first part of September. Sgt. Henry Pape, Jr., may be addressed at APO 75, San Francisco. Earl Pape, GM 2/c, San Francisco Fleet post office, writes home that he "missed seeing the Osmond boys at Okinawa."

Carpenters are wanted for government service at the U. S. Naval Training center, Great Lakes, the board of U. S. civil service examiners there announced.

## Extra Gas—Extra Care!

With an increase in gas allotments to American motorists during summer months, a comparable increase in the traffic accidents is likely unless drivers also increase their precautions on the road, the National Safety Council warned today.

The traffic accident rate has climbed upward month by month in 1945, though the year started well with January showing a 14 per cent decrease over January of 1944. The stage is set for a continuance of this accident rate climb, the Council said, with rusty drivers being given more gas to drive old cars over highways that have not been adequately maintained during the war.

The Council offered these suggestions to American motorists for safer summer driving:

1. Hold your speed down.
2. Have your tires checked at least once a week.
3. Keep brakes in good condition by frequent checks.
4. Have headlights adjusted.
5. Remember there will be many more drivers on the highway. Show consideration for them.

## 40 Persons Drown Each Day in July

One person will drown in the United States every 35 minutes during June and July, according to the National Safety Council. That is an average of 40 persons drowned each day. Those figures are based on previous annual records.

July is the peak month with one-fifth of all drownings occurring during that month.

With fewer lifeguards on public beaches and at swimming pools, the National Safety Council suggests the following points to swimmers:

1. Never swim alone.
2. Take it easy at beginning of season before you're in condition.
3. Avoid swimming soon after eating, when overheated, when tired and after drinking alcoholic beverages.
4. Dive only when you know the depth of water,

- and the condition of your swimming place.
5. Stay near shore unless accompanied by a boat.
6. Don't show off!

## We Must Have Production

One thing is certain these days of uncertainty—if the prosperity factors of our American economy are allowed to function under the free, competitive enterprise system, we shall have jobs a-plenty, and good jobs will be seeking men to fill them.

These "prosperity factors" are at hand: We have the greatest supply of skilled labor in our history. We have the greatest productive machine the world has ever seen—expanded for victory and for a shining peacetime future. We have the forces to put both that machine, and the men to man it, in action, with the greatest pent-up demand for civilian goods ever created.

And we have the money with which to buy. Competent authorities estimate pent-up purchasing power and savings at figures ranging 80 million to 125 billions of dollars. That means that the pipelines of production will have to be filled and filled quickly.

If production is hampered, jobs are automatically cut.

If production is crippled for any cause, the dollars of savings will lose value as people bid for scarce articles, and we shall have disastrous inflation.

If production is curtailed, then we shall not be able to discharge our obligations toward rehabilitating foreign lands, and thus endanger permanent peace.

If production is hurt for any reason, we shall not be able to return our fighting men to their rightful productive niche within our economy.

## News of the Boys...

At a U. S. base, Tidworth, England (delivered)—Stanley I. Runyard, 23, storekeeper first class, USNR, of Antioch, Ill., served with the U. S. Naval Inspection detachment which is finishing its vital job here after 19 months of working with Army ordnancemen to keep navy small craft and army tanks in operation.

During the invasion and follow-up operations across the Channel, the speedy rebuilding and return to action of damaged or worn out engines played a big part.

The 90 navy diesel specialists and mechanics, together with the army ordnance battalion which supplied manpower for the assembly line, operated what was virtually a small diesel engine factory.

Engines were taken from landing craft and tanks in the field and shipped to this unit, which tore them down, checked, repaired or replaced worn parts, then reassembled them.

After a five-hour test with full load, the engines were again shipped out to the field.

The plant could turn out 25 rebuilt engines a day. Runyard is the son of Mrs. Nell Runyard of Antioch. He attended Union Free High school, Wilmet, Wis. Before entering the navy, he was employed as chief shipping clerk at Great Lakes Naval Training center.

David B. Sims of the marines and Sgt. Harold A. Sims met for the first time in four years on Okinawa, May 9. Their parents, Harold and Margaret Sims, live at Petite lake.

Cpl. Glenn W. Fox has earned seven battle stars during his service overseas, relatives here have been informed. His army post office number is now New York 758.

CORRECT—Attest:

O. S. Klass, R. E. Barnstable, Wm. A. Rosing

Sworn to and subscribed before me this 10 day of July, 1945.  
(SEAL) Harry J. Krueger, Notary Public.

We desire to call your attention to our present statement which we feel was made possible by the loyalty of our patrons, who appreciate our continual friendly service.

For their information, as well as for that of the general public, our stockholders authorized the sale of \$30,000.00 of additional common stock at the annual meeting held Jan. 10, 1945. The funds derived thereby were used to purchase the Reconstruction Finance Corporation holdings, which consisted of Preferred A stock in the amount of \$20,000.00, and to retire \$10,000.00 of Preferred B stock. A stock dividend of \$10,000.00 was also distributed to the stockholders by the board of directors. By this action of the stockholders and the directors of the bank, our outstanding stock now consists solely of \$50,000.00 of common stock, all individually owned. We also have a surplus of \$10,000.00 and undivided profits amounting to \$7,410.11.

Since Sept. 6, 1935, deposits in the bank have increased nearly five-fold, mounting from \$257,789.45 to a total of \$1,236,531.46 on June 30, 1945.

The bank has before it a splendid future in promoting the best interests of the Lakes region, and we believe that it will have many opportunities to do so by financing worthy projects from time to time.

Antioch must have more homes for employes of its various industries, and some day we will have a better transportation system. We already have excellent schools and churches to serve the community.

The bank is now looking forward to a new life, and is ready to play its part in planning constructively for the post war era in the Lakes region.

ARE YOU GOING TO DO IT  
THE HARD OR EASY WAY?

That swell plan you've got for later on can be realized much more easily—if you keep your head now!

Now—is the time to sock your money away in the best investment in the world, and at the same time give your country the help it's asking for, with War Bonds.

Now—goods are scarce and prices high. You'll get a good dollar's worth if you don't spend your dollar now—if you hold on to those War Bonds till they mature.

Now—when you're maybe making more money than you used to and it's not so hard to keep on buying that War Bond every week or every month—is the time to insure your future plans.

You may be able to fulfill them the hard way later on—by scraping up the money somehow. And again—you may not.

If you're wise—you'll do it the easy way—with War Bonds now to have and to hold!
